LIVESTOCK REPORTER

Fort Worth, Texas, December 22, 1983

ph & Thangs

APPENS EVERY YEAR ABOUT THIS TIME...

We was standin' in front of th' fireplace warmin' our backsides and wonderin' what folks was doin' who have to scrimp along without an open fire and wonderful friends like you-all, and givin' some deep thought to fitchin' or sneakin' a little nip before Sandy Claws arrived. We finally vetoed th' idea, since we hate to be caught takin' medicine all alone by ourself, and sure nuff, here comes the fitchin' & janglin' and snortin' and puttin' that indicated ol' Rudy th' Red Nose and th' rest of the team had come in for another of those smooth landings that make them Astronauts green with envy. Sandy was here, again!

He come in and settled in front of th' fire and we fixed us a little nip of Old Early Grave and started our annual discussion. I says, "How'd it go this time, Sandy?" and he sorta sighed and stretched his legs out as his feet was closer to th' fire. "Oh, just about the usual ol' milk run. Of course, we had to watch it pretty close over a lot more places, since there are more ground to air missiles in a lot more places, and more of these people are inclined to shoot first and ask questions later."

I asked him, "How is The Situation, if you don't mind an unpleasant question on Christmas Eve?" And Sandy says, "Oh, don't worry about that. We got a normal crop of bad guys here & there and also a normal production of nice folks. That never changes much. It's improvement in communications lets us hear about more of it and a lot quicker than used to be the case."

I reminded him, "I recall last year you said there was gonna be a lot of th' world under New Management this year. Is it?" "Yep," he says, "there has been a big turnover. There are more in th' works, since these trigger happy people have got all of them sophisticated weapons, and itchy trigger fingers, they just can't resist th' impulse," he said.

"How does th' economy look now?" I says. And Sandy says, "well I've seen some unholy messes here and abroad, but it looks like we got a lot of business people and bankers that are geared more for politics than what they are tryin' to do. Used to be if you wanted things messed up, you could depend on th' politicians to get it done up brown. Now they have done their part, every Government in th' world is so far in debt they can't count high enough to figure out how far they are in th' hole. But, what makes this diffunt is that them bankers and money managers have let every nincompoop in th' whole world take the money and run and if they ever have to call them loans we will all have to go back to usin' beads or wampum for money."

So I says, "It is this year's crop of kids lookin' to ruin Sandy?" And he jst let out a big belly type laugh and says, "Don't worry too much about th' kids. They are th' smartest bunch we ever had. While their folks have been livin' in th' past, waitin' for them old snooty to straighten out, the kids are straightenin' out. The kids are straightenin' out. The kids are straightenin' out."

On Feed Seven States

Decline
Washington, Dec. 14 (USDA) - Cattle and hogs on feed Dec. 1 for slaughter in the seven states moving monthly estimates totaled 11 million head, a 6% decrease from a year ago.

Weather Markets Keep Rally Going

Markets Monday
Temperatures and icy roads with high red meat demand kept livestock prices at the market on the upswing Monday. Supplies of slaughter cattle were reduced and some points of hogs small enough to pre-empt last. Slaughter cows were mostly higher and bulls mostly steady. Monday's cattle kill was 180,000, down 10,000 from a year ago and 5,000 below a week ago.

Hogs also posted higher prices. Monday's hog kill at 301,000 was 54,000 more than a year ago and a couple of thousand more than a week ago. Price trends were on choice and prime steers and the mixed good and choice and on good to choice steers and 12-14 hogs. Choice steers 200 to 250 pounds included: 200 to 250 lbs. \$1.58 to \$1.68. 250 to 300 lbs. \$1.58 to \$1.68. 300 to 350 lbs. \$1.58 to \$1.68. 350 to 400 lbs. \$1.58 to \$1.68. 400 to 450 lbs. \$1.58 HIGH POCKETS is a Polled/S Simmental bull that has an excellent growth proof. His progeny are tall, long sided, smooth muscled and clean throughout. They will compete in the show arena.

In living up to our expectations, COBA/SELECT SIRES continues its commitment to beef cattlemen by providing the superior genetics exemplified in SASQUATCH, MOMENTUM and HIGH POCKETS. As an agricultural cooperative we are owned and operated by those we serve, and through patronage return, our members share in the profits earned by the cooperative as determined by our elected board of directors. It is our goal to maintain an image that will make our patrons proud to be a member of COBA/SELECT SIRES. Call for more information.

CC-Owned Grain Stable In Texas

Washington — Deputy Secretary of Agriculture Richard E. Lyng today said nearly 28 million bushels of Commodity Credit Corporation corn stored in California, Texas have been found to be in stable condition after completion of extensive testing by the U.S. Department of Agriculture.

The "deep-probe" analysis, a highly accurate method for determining the quality of stored grain, was initiated in early November by Secretary of Agriculture John R. Block following reports that the grain was "spoiling." "This federal inspection shows any charges to the contrary," Lyng said. "Those charges were based on the results of an unofficial, less sophisticated testing procedure."

It is important to remember that this corn was never intended for human consumption, Lyng said. "It was intended for feed grain when it went into storage, and the results of our re-inspection indicate it is holding its own condition. This grain is not spoiling."

Specific results of the testing show 2,938,077 bushels have a U.S. Yellow Corn Grade 1 quality; 4,299,383, Grade 2; 1,982,991, Grade 3; 6,124,887, Grade 4; 1,968,302, Grade 5; and 2,107,978, Sample Grade. The lower grades (4, 5 and Sample) relate to broken kernels which do not affect the nutritional value for feeding purposes.

The inspection also determined that the grain is currently stored under acceptable conditions. The complete report will be provided to the Congress in the week of Nov. 28.

Feedlot Cost of Gain Advanced in November

BY DR. MARCUS HOELSCHER

Special to The Weekly Livestock Reporter

Hereford, Tx. — November cost of gain was up when compared to the previous month. Steers fed for \$59.06 per cwt., up to \$1.52 per cwt. and heifers fed for \$60.48, up \$1.61 per cwt.

Steers weighed 709 lbs. on feed, finished at 1154 lbs. and gained 2.97 daily for the 150 day feeding period. Heifers went on feed at 617 lbs., finished at 972 lbs. and gained 2.55 lbs. daily for 139 days.

Compared to the previous month, both steers and heifers were placed on feed at lighter weights. Steers were finished 16 pounds lighter. However, heifers were finished 9 pounds heavier.

Cost of December rations are similar to November rations, averaging \$180.00 per ton. Ration costs include a \$16.00 per ton markup.

Yards are very current with their show list of finished cattle. Yards will be entering the new year in excellent shape.

Farmers Must Pay Estimated Tax Soon

If you are one of the individuals who turned at least two-thirds of your 1983 gross income from farming, you have until Monday, January 16, 1984, to make a 1983 declaration of estimated tax and to pay any taxes due.

However, according to the IRS, farmers who plan to file their 1983 income tax return and to pay the total tax balance by March 1, 1984, are not required to make an estimated tax declaration.

Additional information is available in the free IRS Publication 225, "Farmer's Tax Guide," and Publication 505, "Tax Withholding and Estimated Tax." These publications can be obtained by calling the IRS number listed in the telephone directory.

First Shipment Of Fresh Embryos Is Exported Into Canada

New doors for the transfer of cattle genetics between the U.S. and Canada were opened this week as the first shipment of fresh embryos was exported into Canada from the United States.

Risinger Ranch, Cody, Wyoming, in cooperation with Rio Vista Genetics, San Antonio, Texas, collected nine fullblood Simmental donor cows early in the morning of November 13 and shipped 26 fresh embryos by air to Gagnon Farms, Cheneville, Quebec, Canada where they were implanted into recipient cows that evening.

Mitch West, Director of Genetics at Rio Vista International, did the collecting and implanting of the embryos, personally carrying the sealed container between the two locations and through customs.

Yves Gagnon, owner of Gagnon Farms, who will be purchasing the pregnancies that result from these transfers, spent much time on coordinating the paperwork in Canada. "This is an exciting moment for us," Gagnon remarked. "It allows us to diversify our genetics and build a top quality Simmental program quickly and easily."

Tom Risinger, Director of Marketing at Rio Vista International and owner of Risinger Ranch, commented that this first successful exportation of fresh embryos into Canada will open a new market for all purebred cattle producers, allowing both countries to benefit from the exchange of superior genetics.

Canada's rigid health requirements have been a deterring factor to this type of exportation as the testing, paperwork, and regulations are quite lengthy and must be followed to the letter. "We started working on this exportation last May," noted Denny Shore, managing partner at Risinger Ranch. "It was worth the wait to make this breakthrough."

Not only did the donor cows have to meet the health standards and pass tests for tuberculosis, brucellosis, anaplasmosis and blue tongue, but the semen from the bulls also had to qualify for importation into Canada and pass health inspections.

Wyoming State Veterinarian, A.M. Bradley, DVM, Worland, was on hand in Cody for the entire collection procedure and personally sealed the container that carried the embryos to their destination in Canada.

Georges Creek Sets Top Of \$2850 On Simmental Bull

Georges Creek Ranch held their Registered Simmental Range Bull Sale at the ranch near Cleburne, TX on Thursday, December 8. Seventy bulls grossed \$87,650 to average \$1262.

Top selling bull was GCR 194D, a fullblood bull born September 1982 and sired by Bar 5 Calanova. This bull had a yearling index of 112 and sold to W. J. Rhodes of Breckinridge for \$2850.

Second top seller was GCR 192P, another fullblood bull, born April 1983. This bull was sired by The Roman and had a yearling index of 102. He sold for \$2800 to Gene Connor of Cypress.

GCR 323P was the third top seller. An October 1982 son of CSV Achilles Superstar, this lot sold for \$2000 to Longfellow Farms of Mineola.

"This was an excellent set of Simmental Range bulls, well presented and in great condition. One of the best offerings of range bulls this year."

Auctioneer for the sale was Joe Mittham.

God gives us memory so that we may have room in December.

Simmental National Sale Set For 1984

Boseman, Mt. For the first time since 1976, the American Simmental Association will again designate and conduct a National Sale. The event is scheduled for January 19, 1984 and will be held in conjunction with National Western activities in Denver, Colorado. Transcon Livestock Services, Inc. has been selected as the sale management firm.

"The Board of Trustees has decided to reinstitute The National Sale, and has chosen the Denver National Western as the site," said Earl B. Peterson, Executive Vice President. "The Colorado Simmental Association has agreed to relinquish their National

7P Simmental Bulls Go For \$1107 Average

Seven P Simmental Ranch held their fourth annual bull sale at the ranch north of Tyler on November 5. Seventy bulls grossed \$79,775 to average \$1107. Topping the bull sale at \$2800 was a September 14, 1981 son of Lacombe Achilles that went to Powell's 6P Ranch of Troup. A June 27, 1982 son of Signal's Masterpiece brought \$2025 going to Lloyd Nations of Grand Saline, TX.

Volume buyer of the sale was Stiles Cattle Co. of Cuero.

Trendsetter Sale held each year at the National Western in favor of The National and we appreciate their willingness to cooperate in this manner."

Peterson pointed out that preliminary plans call for 80 head of purebred Simmental and Simbrah, including both bulls and females, to be consigned. All cattle nominated will be appraised and selected on the farm in order to meet rigid quality standards.

All animals in the Sale will be blood typed and their parentage verified prior to the date of Sale.

1984 Simmental Sire Summary Released

The American Simmental Association has released its 1984 National Simmental Sire Summary. "This document is based upon performance records accumulated by the Association since it was established in 1968," said ASA Executive Vice President, Earl B. Peterson.

"Nearly one million progeny records are available for evaluation, making the 1984 edition an up-to-date, highly accurate measurement of the American Simmental Association," Peterson explained.

"These records are supplied by more than 17,000 individual beef producers who have become life members of this Association," Peterson said.

Progeny data is consolidated from computerized performance records on an annual basis. Breed-wide comparisons of sires are tabulated and reported in 12 economic traits, affecting growth, maternal, and carcass characteristics.

Data is listed in the 1984 Sire Summary in at least one trait for 1,426

Simmental.

When packers discount carcasses with excess backfat, it's time to change genetics. You adapt, or lose your market.

The first cross with a Simmental bull reduces backfat by half an inch and adds \$50 in red meat to the carcass. USDA reports on 5,756 Simmental carcasses show they average Choice-minor with 2.6 Yield Grade. That's why Simmental feeders bring a premium.

PERFORMANCE EXPLOSION!

purebred bulls. Only those sires with 20 or more progeny in at least one trait are listed in the Summary. However, giving performance records from more than 6,000 purebred bulls was evaluated and used in the comparison. The year ago, 4,600 calving performance records were considered, a direct reflection of the continued growth of the breed in the U.S.

A key feature of the ASA performance program is free calculation of records for members and non-members alike, when either the sire or dam is a registered Simmental. Thus, a commercial producer may obtain cost-free performance calculations by using a registered Simmental bull and submitting the data.

A shortened edition of the new Sire Summary was also produced this year," Peterson said. "We've had numerous requests from universities, county agents, vocational instructors and others for summaries. We have produced the Educational Version, which includes all informational pages and a sampling of data pages, which we'll provide within reasonable numbers, upon request."

All active ASA members automatically receive their free copy of the National Simmental Sire Summary. Non-members may obtain copies by calling a 45 check for each copy requested to the American Simmental Association, One Simmental Way, Thomas, MT 59715.

Robert Dahl, Gruver, TX, president of the Texas Shorthorn Association has called a meeting of the officers and directors of the Texas Shorthorn Association to be held on January 28, 1984 at the Green Oaks Inn of Fort Worth, TX. The meeting will commence at approximately 5:30 P.M., or immediately following the annual banquet. All officers and directors are urged to attend.

Wards Simmental Bull Sale Will Be Jan. 7 In Gainesville

Thurman and Cecil Ward will hold their Annual Simmental Bull Sale on Saturday, January 7 in Gainesville, Texas. The sale will start at 12 noon and be held at the Gainesville Livestock Market, Inc.

Selling will be 100 bulls, all service aged, fertility tested and carry health papers. All bulls are bred and raised on the Thurman and Cecil Ward's Ranches. Included in the offering will be halves, three quarter, seven eighths, and purebred bulls carrying the bloodlines of Extra, Galant, Apollo, Beat, and Renz.

For more information, contact: Gainesville Livestock Market, Inc., 1920 Refinery Road, P.O. Box 1055, Gainesville, TX 76240, 817/665-4367.

The "Edition" will be a sequel to the highly successful Lone Star Revue Simmental Sale held last year in Fort Worth during the 15th Annual American Simmental Association Convention. Sixty-four lots of Fullblood and Purebred Simmental sold in that sale for a \$5,065 average. Consignments were accepted from breeders in ten states and Canada.

Nominations to this year's prestigious event are now being accepted. For further information, or to obtain nomination forms, contact Jim Grubbs at Route 3, Box 42, Granbury, Texas 76048, Phone 817-578-1822 or sale consultant Dean Taylor at Box 137, Stephenville, Texas 76401, Phone 817-968-8020.

Lone Star Edition Simmental Sale Scheduled For Feb. 4

Jim Grubbs, President of the Palo Verde Simmental Breeders Association, recently announced that they will sponsor the Lone Star Edition Simmental Sale. The sale will be held on Saturday, February 4, 1984, during the Northwestern Exposition and Fat Stock Show in Fort Worth, Texas. The offering will include 60 Fullblood and Purebred Simmental cattle consigned by leading breeders from across the nation.

Border Beefmaster Breeders To Hold Sale January 14

The Border Beefmaster Breeders Association will sponsor an association sale Saturday, January 14 in Rio Grande City, TX. The sale will start at 10 a.m. and be held at the Rio Grande Livestock Sale, Inc.

Selling will be 65 lots including bulls, three-in-one packages, pairs, and bred and open heifers. Sale consignors are:

Allen Shorthorns
\$4173 Average
With 60 Lots

The Allen Farms "Proof of Progress" sale was held November 28 at the farm in Hamilton, MO. Guest consignors to the sale were Green Ridge Shorthorns of Urbana, MO and Gary and Pam Naylor of Buffalo, MO. Two bulls averaged \$8750, 27 1/2 pairs \$9800, 24 female lots \$4850 and 8 open heifer lots \$2881 for a total of 80 lots averaging \$4173.

Shannon Margie 924 was the top sale. Born May 1979 and sired by Dale of Swisher, one half interest and co-ownership in this cow sold to Mike Jones of Manor, TX for \$50,000. Dale's Miss Springfield was the next top seller at \$10,000. Sired by Spiro, this cow was open and ready for implant. Full interest in this cow sold to Phil Horton's 8 8 Shorthorns of Arlington. She had a bull calf born July 15, 1983 that sold for \$2800 to Rag Dalley of Leduc, Canada. This was for two lots interest.

Augusta Maid 284, a July 1982 daughter of Deepark Leader 13th was a third top seller. This heifer sold to Mann Farms of Cleburne, TX for \$7600.

By selling bull was AF Triple Play, sired by Deepark Leader 16th. Two lots interest and possession to the buyer after the Fort Worth show in this January 23, 1983 calf sold at \$9500 to the Family Shorthorns of Indianapolis. Phil Phillip Jester of Losantville, IN. There were buyers from eleven states and Canada. The top selling cow \$10,000 was a breed record. An exact sale of quality Shorthorn cattle. Cagwin Cattle Services managed the sale and Bruce Brooks was the auctioneer.

Was Shorthorn Lassie Seen To Vie For National Title

Hella Overmann, the reigning Shorthorn Lassie Queen, will be leaving CO January 12-16 competing for the title of the 28th National Short-horn Lassie Queen. She will be competing against state queens from 13 other states for this title. Miss Overmann is the daughter of Mr. and Mrs. Hella Overmann of Houston, TX. She is a junior at Texas A & M University College Station.

Miss Overmann is also the secretary-treasurer for the Texas Shorthorn Association and has served as a Shorthorn Lassie Princess in the past year. At Texas A & M, she is a member of the Saddle and Saddle Club which she is currently serving as secretary. She is a member of the Texas A & M Most Judging Team, a member of the student advisory council of the Department of Animal Science and is a recipient of the Houston Livestock Show and Rodeo Go Texas scholarship.

In Denver, the Lassie queen contestants will be attending the Shorthorn show and activities at the National Western Livestock Show. They will also be dinner guests and see the "Shorthorns" in Boulder, CO on Friday night, January 12. They will hold the Seedstock Special Edition II sale of Shorthorn cattle at 1:00 P.M. on Saturday, January 14 and they will attend the judging of the Shorthorn cattle on Sunday, January 15. The new 1984 Shorthorn Lassie Queen will be crowned Saturday evening, January 14 at the annual banquet of the American Shorthorn Association.

NOID CHANGING WELL LEATHERS
FOR MANY YEARS

Perma-cups are molded urethane cups with resilient than nylon. Perma-cups outlast leathers 10 to 1. They are tested at allows only 1/8" wear in instead of 5/8" of a leather. Much better for easier pumping extending life greatly. Perma-cups can be used in a good or new cylinder, and they are not swell. Install Urethane Perma-cups, Urethane Check-balls and Urethane Pump Rod-guides, and start pull that well for many years. They are in wells that have no water. In 9 year old artesian wells in oil and gas cylinder and pipes. Write or call for our catalog. We will send you order is received. This is the same day serving ranchers.

A WATER TRAP THAT WORKS
For years, J. A. Keetch, have been interested and have researched all I could on the conservation of our rainfall. I live deep in the heart of Texas where our rainfall is very irregular.
I have a plan, which I would like to see researched whereby every farmer and rancher could have his own irrigation system. This could be made possible by trapping our water and using it with underground water and streams.
I have a MINI PROJECT now. It's not used for irrigation but for tank water. My tank stays nearly full of stock water when most of my neighbors are dry.
MY WATER TRAP REALLY WORKS.
I am a Beekeeper and Manager of Hilltop Lodge. I would like very much to see this project pursued to its fullest. We would have no trouble, I'm sure, in getting some big farmer or rancher to let us use his place for research. Anyone interested in my MINI PROJECT can reach me at - - -
